## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-7 and 9-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Jiang et al. (US2003/0002545).

Jiang show in Fig.5 a fiber semiconductor laser source comprising a tunable VCSEL 201', a fiber amplifier configured to receive a laser output of said VCSEL 201', an optical pump source 304, coupling optics 502 coupling to said VCSEL 201' and to said fiber amplifier 505, and said coupling optics 502 configured for optically pumping each of said tunable VCSEL 201' and said fiber amplifier 505.

Claims 15-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Hsu et al. (US6263002).

Hsu show in Fig.5 a tunable VCSEL 5, a gain fiber coupled to the output side of said VCSEL, a pump laser 35, and a WDM having first and second input ports and an output port, with said first input port coupled to said gain fiber and said second input port coupled to said pump laser 35.

#### ***Allowable Subject Matter***

Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is

filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
